<p><b>Remarks</b></p>	<p>It was a very interesting educational and professional experience; I believe it is fundamental in the professional life of a teacher because every exchange with other European working dimensions forces us to reflect on our daily work practices.</p> <p>I feel very satisfied and I will be adopting in my daily practice what I learned during the job shadowing experience, but also because this experience has produced an added value in terms of human capital in relation to the solid relationships of esteem, collaboration and friendship developed both with Italian and European colleagues.</p>
