A fantastic experience that has let us meet different cultures and has introduced us to a real work environment

# Carrying out work!!

The first days of work.  
We were not really keen with all  
the tools so our tutors preferred to  
let us observe ...

... and take notes of the various parts of a vehicle

Our tasks:

changing oil and engine fluids

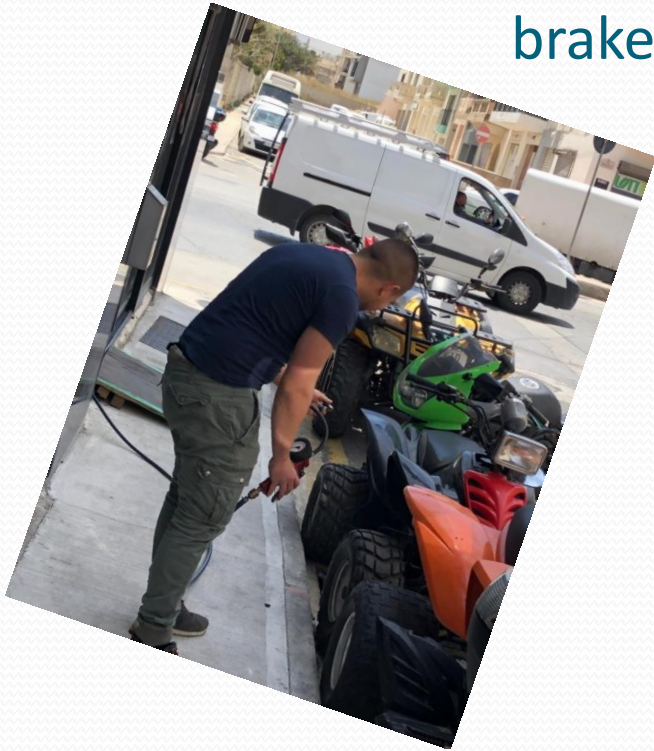

tuning carburetors

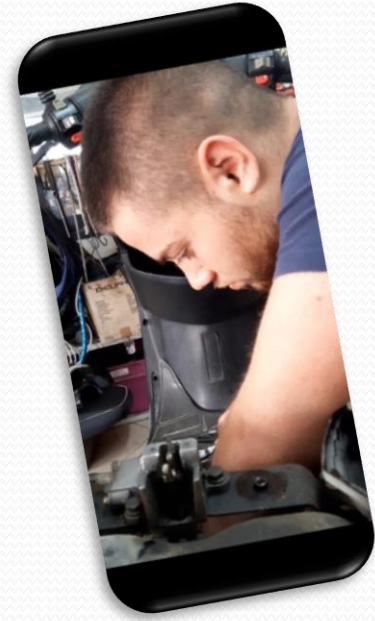

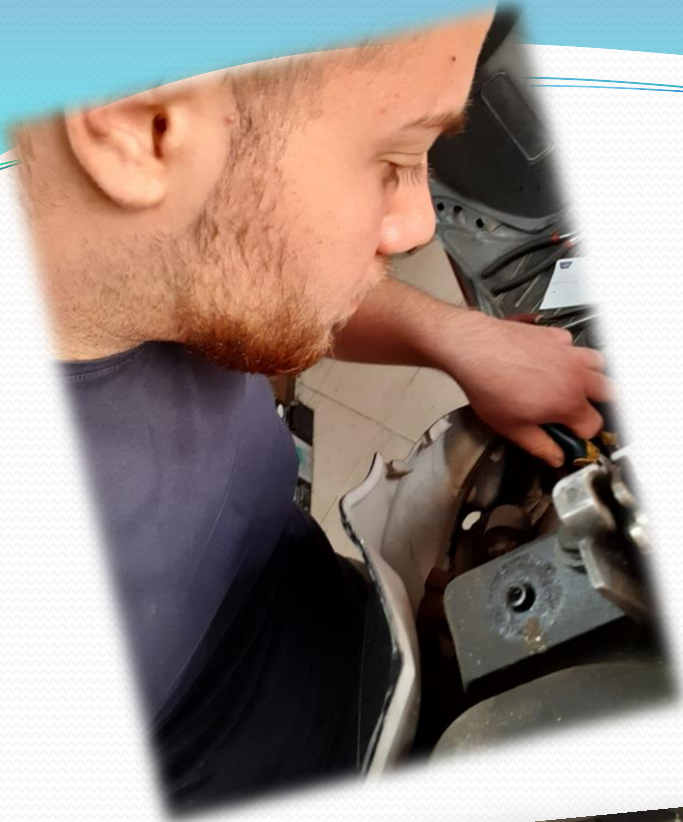

replacing belts and clutches

changing thermostat and brakes

replacing tires

doing coupons (tire pressure, vehicle lights and brakes control)

After work!!!

We wanted to say thank you to all our colleagues. A special mention goes to our tutors Claudio (Moto World) and Chris (Tony's Garage) who made us feel at ease from the beginning, thanks to their patience and kindness.
